

DOXYGEN

Descargar Doxygen desde <https://www.doxygen.nl/download.html> (en este caso el zip)

A binary distribution for **Windows**. All 64bit versions of Windows are supported.

doxygen-1.9.3-setup.exe (41.2MB)

This is a self-installing archive that includes the HTML and compressed HTML versions of the manual and the GUI frontend. It requires a 64-bit version of Windows.

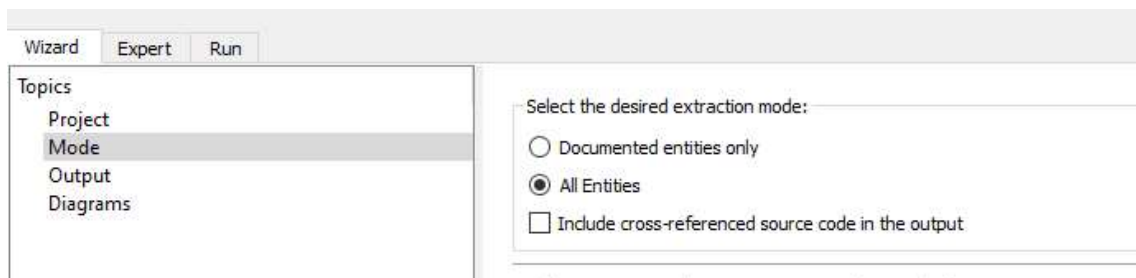

If you are allergic to installers and GUIs, haven't sufficient bandwidth, or don't have administrator privileges you can also download the [binaries in a zip](#) (36.4MB).

Ejecutar doxywizard:

- Especificar ubicación de Doxygen
- Especificar ubicación del proyecto
- Especificar ubicación del código a documentar
- Activar la opción de escanear recursivamente (para que revise todas las carpetas de dentro)
- Especificar directorio donde se creará la documentación

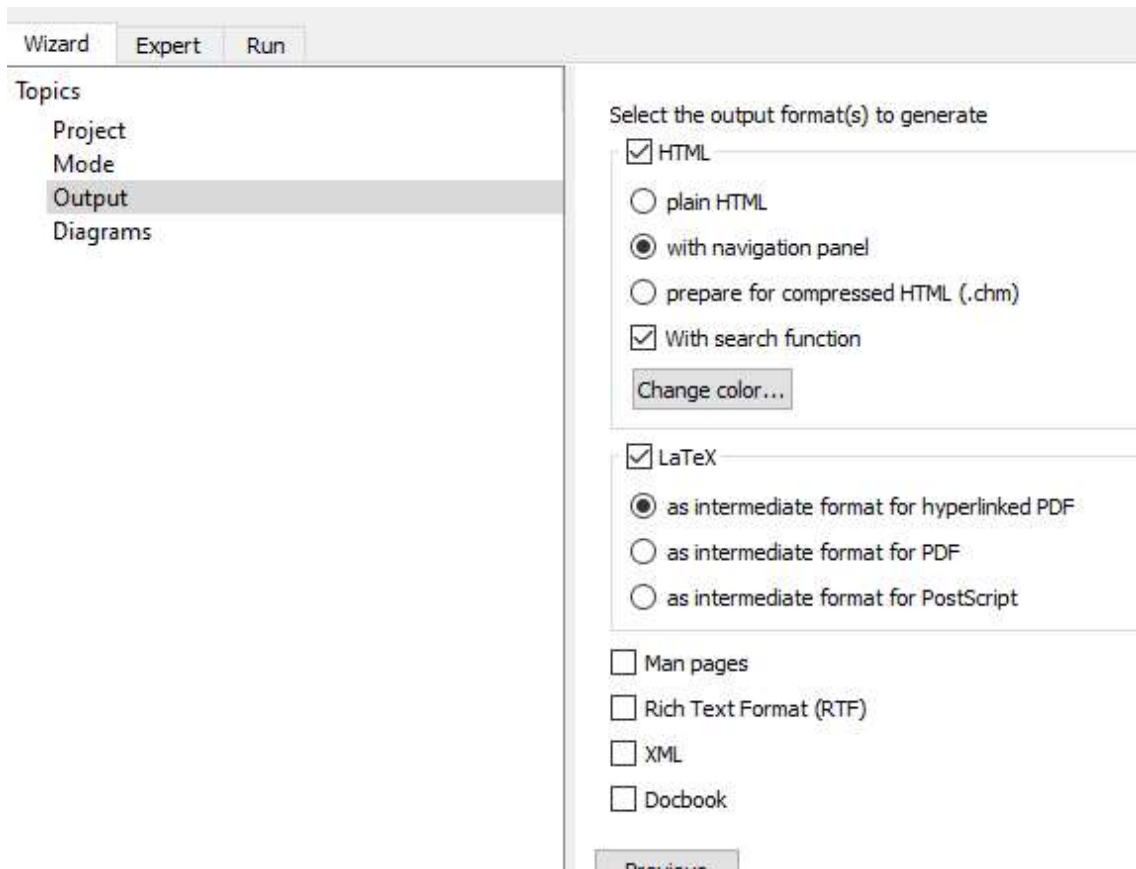

The screenshot shows the 'Doxygen GUI frontend' window with the 'Wizard' tab selected. The window has a menu bar with 'File', 'Settings', and 'Help'. The main area is divided into two panes. The left pane, titled 'Topics', contains a list: 'Project' (selected), 'Mode', 'Output', and 'Diagrams'. The right pane, titled 'Provide some information about the project you are documenting', contains several input fields and buttons. At the top, it says 'Specify the working directory from which doxygen will run' with a text box containing 'D:/Oscar/Documents/NetBeansProyectos/software/doxygen-1.9.3.windows.x64.bin' and a 'Select...' button. Below this, it says 'Configure doxygen using the Wizard and/or Expert tab, then switch to the Run tab to generate the documentation'. The 'Wizard' tab is active, showing 'Project name' (214DWESAplicacionFinal2122), 'Project synopsis' (empty), 'Project version or id' (empty), and 'Project logo' (a 'Select...' button and the text 'No Project logo selected.'). A horizontal line separates this from the next section, 'Specify the directory to scan for source code', which has a 'Source code directory' field containing 'yectoDAW/214DWESAplicacionFinal2122' and a 'Select...' button. Below this is a checked checkbox for 'Scan recursively'. Another horizontal line separates this from the final section, 'Specify the directory where doxygen should put the generated documentation', which has a 'Destination directory' field containing 'uments/NetBeansProyectos/DocDoxygen' and a 'Select...' button. At the bottom of the right pane are 'Previous' and 'Next' buttons.

Seleccionar todas las entidades:

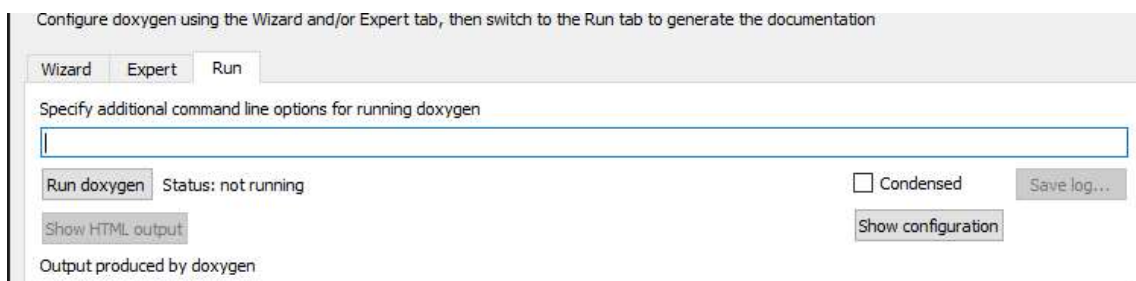

The screenshot shows the 'Expert' tab of the Doxygen Wizard. On the left, under 'Topics', 'Mode' is selected. On the right, under 'Select the desired extraction mode:', the 'All Entities' radio button is selected. The 'Include cross-referenced source code in the output' checkbox is unchecked.

Activar panel de navegación:

The screenshot shows the 'Expert' tab of the Doxygen Wizard. On the left, under 'Topics', 'Output' is selected. On the right, under 'Select the output format(s) to generate', the 'HTML' checkbox is checked. Under HTML, the 'with navigation panel' radio button is selected. The 'With search function' checkbox is checked. There is a 'Change color...' button. Under 'LaTeX', the 'as intermediate format for hyperlinked PDF' radio button is selected. Other output formats like 'Man pages', 'Rich Text Format (RTF)', 'XML', and 'Docbook' are unchecked. A 'Previous' button is at the bottom.

Click en “Run doxygen”:

The screenshot shows the 'Run' tab of the Doxygen Wizard. At the top, it says 'Configure doxygen using the Wizard and/or Expert tab, then switch to the Run tab to generate the documentation'. Below this, there is a text field for 'Specify additional command line options for running doxygen'. A 'Run doxygen' button is present, with a status indicator 'Status: not running'. To the right of the button are checkboxes for 'Condensed' and a 'Save log...' button. Below the 'Run doxygen' button is a 'Show HTML output' button. To the right of that is a 'Show configuration' button. At the bottom, there is a label 'Output produced by doxygen' above a text area.

Dentro de la ruta especificada habrá creado dos carpetas. Se accede mediante `html/index.html`
